

Sirs:

I am writing to express my concern regarding the potential of LPFM stations being given priority over FM Translators. These translators offer extended coverage for local communities.

Specifically I believe the public benefit of National coverages of KLOVE radio help many persons find not only comfort and help to personal problems, but also offer an alternative music solution to parents who are concerned about the words contained in music and speech. KLOVE provides this avenue for families and individuals.

With the recent actions by the FCC in fining obscene behavior, it is very important not to compromise the existing venue used by KLOVE to provide a public service which families need.

Please do not give LPFM priority over FM translator service.

Thank you for your valued time and consideration
